

Dushyanthi “Dushy” Nirmalan Engineer

Dushy Nirmalan joined Aquattica Pools and Water Parks in 2005. Along with her formal education in engineering, her teaching experiences at Indiana University- Purdue University Indianapolis in Indianapolis, IN and Iowa State University in Ames, IA have all contributed to a well rounded background in civil and structural engineering detail and practical application.

Nirmalan has an extensive background in designing pre-stressed and post tensioned structures, quality control on final plans, and designing concrete and steel structures.

Her concentration with Aquattica Pools & Water Parks has been to focus on detail of swimming pool design, hydraulic operation and structure.

Her attention to detail provides all of the firm’s projects with an unsurpassed level of quality assurance.

Responsibilities:

Project Design, Engineering,
Review and Submittal
Oversight.
