

## Testimonials

"Aquattica Pools & Water Parks, Inc. has been providing consulting and design services to USA Swimming as a 'preferred provider' for years. Equally important, Aquattica has served our clients with care and understanding to help facilitate projects nationally. We highly recommend their service and have been very pleased with their technical and production abilities."

John R. McIlhargy  
USA Swimming, Director, Facilities Development

"The team at Aquattica Pools & Water Parks has an attention to detail to what works and what does not. They have a great wealth of knowledge of the pool construction industry and its construction techniques. This within an in-depth knowledge of the pool contractor building the pools, served to benefit our clients by always looking for quality and value."

Dennis Steers  
Associate, Flack—Kurtz, Inc.

"Over the years we have found Gary's understanding of the swimming pool industry to be second to none. His ability to suggest appropriate and economical solutions to difficult problems has been most appreciated by our office."

Edwin M. Wallover, III, AIA  
President, Wallover Architects, Inc.
